April 10, 2014

The Honorable Sam D. Pulia, Village President Village Board of Trustees Citizens of Westchester

On behalf of the Village Management Team, it is my pleasure to present to you the Village of Westchester's Annual Operating Budget for the fiscal year commencing May 1, 2014 and ending April 30, 2015. The FY 2015 Budget was developed by the Village's Management Team consisting of the Village Manager, Police Chief, Fire Chief, Community Development Director, Public Works Supervisor, IT Manager and myself.

The Village's proposed FY 2015 Budget establishes the Village's fiscal policy for programs and services provided to its residents for the fiscal year beginning May 1, 2014. This budget provides the legal framework for the Village of Westchester to perform its duties and fulfill its financial obligations. This budget provides the spending authorization for seven budgeted funds:

General Fund
Special Revenue - Motor Fuel Tax Fund
Special Revenue - E-911 Fund
Special Revenue - Hotel/Motel Tax Fund
Capital Projects - Series 2013Project Fund
Debt Service - GO Bonds Series 2013 Bond Fund
Enterprise - Utility Fund

The budget has been prepared to address the operation, maintenance, capital expenditure and debt service needs of the Village of Westchester. As with other municipalities in the Chicago metropolitan area, the Village has been impacted at the local level by regional, state, and national economic conditions. As with the overall economy, Westchester has been impacted by the decline in the housing market, unemployment, credit/loan issues, the position of the stock market, increasing pension costs and the fiscal crisis in the State of Illinois government.

Fortunately, the lack of large commercial or retail establishments in Westchester has resulted in a less dramatic downturn due to the community's reliance on other sources of revenue apart from sales taxes. The overall economic conditions appear to be stabilizing and have caused revenue projections for state and local revenue to be flat as compared to the prior year. The most recent year-over-year sales tax analysis shows an increase of 3.5% over Fiscal 2013. The state income tax is expected to remain flat in Fiscal 2015 as compared to Fiscal 2014 revenues.

The Village property tax base is founded primarily in its residential housing stock. The assessed value of Westchester properties decreased substantially in 2011 based on the triennial reassessment of property values as of December 31, 2011; the Village's equalized assessed value decreased from \$670,014,859 to \$550,475,869 based on the reassessment. The EAV further decreased from \$550,475,869 to \$499,925,456 at December 31, 2012. The property tax cap level for the 2013 tax year levy to be collected for the fiscal year beginning May 1, 2014, was 1.7%. Building activity has been in a steady decline since fiscal year 2008.

Personnel and benefit costs are by far the largest cost to the Village, and represent 65% of the total expenditures for the General Fund (only) and 38% for the entire budget. The vast majority of the Village's personnel are covered under six collective bargaining units. Only 16 of the 91 full-time employees at April 30, 2014 are not members of a collective bargaining agreement. There are no part-time employees included in bargaining units. The collective bargaining units include the following, with the number of personnel in each bargaining unit shown in parentheses. The FY 2015 expenditure provides for estimated salary adjustments to labor agreements in negotiation.

	Contract Expiration Date
Sergeants (7)	April 30, 2012(negotiations pending)
Police Patrol (21)	April 30, 2014
Paramedics and Firefighters (23)	April 30, 2015
Police Records/ CSO Officers (3)	April 30, 2015
Clerical (4)	April 30, 2015
Public Works Maintenance (17)	April 30, 2013 (negotiations pending)

All full-time personnel working for the Village are offered health insurance, life insurance, and by law are enrolled in a defined benefit pension plan. Civilian employees belong to the Illinois Municipal Retirement Fund, sworn police officers belong to the Westchester Police Pension Fund, and sworn firefighters belong to the Westchester Fire Pension Fund.

Fund Balances

The Village's budgeted funds require the use of accumulated reserves (fund balance) to balance their FY 2015 budgets as follows:

General Fund	\$	827,334
Special Revenue - E-911 Fund	\$	55,533
Special Revenue - Hotel/Motel Tax Fund	\$	19,720
Capital Projects Fund	\$2	,124,620

The Village has a Fund Balance Reserve Policy that requires the General Fund to retain a fund balance equal to 30% of the current average operating expenditures of the General Fund and requires the Utility Fund to retain a fund balance equal to 15% of the current average operating expenses of the Utility Fund. The Village is projected to comply with this Fund Balance Policy as of April 30, 2015.

As with the FY 2014 Budget, fund summary sheets have been presented in this budget document that show future year fund balance projections based on economic modeling.

General Fund

Total general fund revenue for the 2014/15 Fiscal Year is budgeted at \$ 16,924,820. This represents an increase of \$3,015,346 or 21.68% from the 2013/14 Fiscal Year budgeted revenue of \$13,909,474. The FY 2015 Budget increase is primarily due to funding in the amount of \$2,121,000 for project costs of the Mayfair Reservoir Expansion Project through an intergovernmental agreement with the Metropolitan Water Reclamation District. The Village intends to perform the design, construction, and perpetual maintenance of the existing Mayfair Reservoir for additional storage and construct a supplemental storm sewer for additional flooding relief.

Construction was started on a Mariano's grocery store in March 2014. The store is scheduled to open for business in October 2014. The Village anticipates an increase in its sales tax revenue approximating \$300,000 due to the increase in the projected sales of the Mariano's store over the previous business at that location.

Follett Corporation relocated its national headquarters to Westchester in March 2014. Follett is bringing a workforce of approximately 650 people to the Village on a daily basis. We anticipate an additional increase in sales tax, places for eating tax and other local revenues based on this increase in the daily population.

In August 2013, the Village renegotiated the terms of its lease with the United States Postal Service for rental of the US Post Office in Westchester. The renegotiated lease amount resulted in a 9.8% increase in rental income. The Village engaged a new photo enforcement company effective December 2013. We anticipate an increase in enforcement fines of approximately \$150,000 based on the enhanced technology of the replacement cameras.

Staff has taken the initiative to reduce costs during the current fiscal year through deferral of capital additions, utilization of financing options for necessary capital purchases, reduction in personnel overtime costs and other cost containment measures.

The Village continues to face the economic challenges of increased pension and health insurance costs. The General Fund budget reflects an increase in the Police and Fire pension contributions aggregating \$200,000. The Fiscal 2015 budget reflects an estimated 10% increase in the premiums of health insurance benefits.

The Village outsourced its E-911 dispatch function effective October 31, 2013. The Fiscal 2015 budget includes an allocation of the contractual cost to the Village's E-911 service provider. The outsourcing resulting in the elimination of seven full-time positions funded by General Fund revenues.

The Fiscal 2015 Public Works Department budget includes the purchase of a new Vactor Truck in the amount of \$324,250. The purchase cost will be shared equally with the Utilities Fund.

The public works budget also includes increase expenditures anticipated for tree removal and replacement as the Village tackles the destruction of ash trees by the Emerald Ash Borer.

Special Revenue - Motor Fuel Tax Fund

In May 2010, the Village issued \$3,500,000 Taxable General Obligation Bonds, Series 2010A to fund street reconstruction and repair. These bond proceeds were used to reconstruct nine local streets in Fiscal 2011 and eight local streets in Fiscal 2012. The Series 2010A Bonds were Build America Bonds and, pursuant to the American Recovery and Reinvestment Act, the Village is eligible to receive a rebate from the U. S. Treasury Department of 35% of the interest paid each year. The Sequester Law enacted by Congress on March 1, 2013, reduced this rebate by 7.6%. The Series 2010A debt service will cost approximately \$300,000 annually for twenty years. The debt service will be made from the Motor Fuel Tax Allotments received from the State of Illinois. Municipalities receive a little less than 25% of the 19-cent per gallon Illinois Motor Fuel Tax. The Illinois Municipal League is predicting that the local share of Motor Fuel Tax revenue will decrease by 1.5% to a per capita rate of \$24.30 in FY 2015.

Special Revenue - Hotel/Motel Tax Fund

The only source of revenue for this fund is the hotel tax imposed on services provided by the Hampton Inn of Westchester. Initial revenue estimates show a stabilization of hotel tax receipts. Expenses included in this fund promote tourism in the Village and include costs for Village special events.

Special Revenue - 911 Fund

In this case, Emergency 911 Taxes (both locally imposed and the local share of State taxes) are recorded in this fund for the purpose of maintaining emergency communications. Emergency 911 expenditures are recorded both in this fund and in the General Fund. The Village imposes a \$1.50 per line tax on landlines. The Village outsourced its E-911 dispatch function effective October 31, 2013. The Fiscal 2015 budget includes an allocation of the contractual cost to the Village's E-911 service provider.

Capital Projects - Series 2013 Project Fund

The Capital Projects Fund was created in Fiscal 2013 to account for the capital expenditures spent from the \$5,800,000 Series 2013 General Obligation (Alternate Revenue Source) Bonds issued on March 12, 2013 restricted for infrastructure improvement projects within the Village.

In the November 6, 2012 primary election, the Village residents passed a referendum authorizing a one percent non-home rule sales tax. These taxes were assessed beginning January 1, 2013. Non-home rule sales taxes received in fiscal 2014 are expected to be in line with the Illinois Department of Revenue projection of 630,000. Proceeds from this revenue stream are restricted for infrastructure improvements and debt service on the Series 2013 Bonds. The fund budget includes an annual transfer out to the GO Bonds series 2013 Bond Fund to fund the debt service requirement on the Series 2013 Bonds.

The FY 2015 budget includes street improvement expenditures of approximately \$3,205,000 to reconstruct local streets. The improvements will be funded primarily with the remaining proceeds of the \$5,800,000 Series 2013 General Obligation (Alternate Revenue Source) Bonds issued on March 12, 2013 to be serviced from non-home rule sales tax distributions. These street improvements are budgeted for:

Downing Avenue (from Cermak to Windsor)
Buckingham Avenue (from Cermak to Windsor)
Essex Avenue (from Sunnyside to Hawthorne)
Hawthorne Avenue (from Windsor to Cul-de-sac)
Wakefield Street (from Wolf to Boeger)
Portsmouth Avenue (from Drury to Dickens)
Suffolk Avenue (from Roosevelt to Gladstone)
Norfolk Avenue (from Drury to Dickens)
Portsmouth Avenue (from Canterbury to Kent)
Oxford Street (from Mannheim to Sunnyside)
Oxford Street (Sunnyside to Mayfair)

Additional streets may be added depending upon project costs. The entire roadway will be removed and replaced with asphalt binder and surface. The projects will include repair or replacement of defective drainage structures and storm sewers, replacement of deteriorated sections of sewer lines, complete replacement of curb and gutters, replacement of any asphalt driveway aprons with concrete and depressed curbs. Parkway restoration will consist of topsoil and sod.

In addition to the street projects listed above, the Village of Westchester has received funding through the North Central Council of Mayors in the amount of \$648,000 for a Local Agency Functional Overlay (LAFO) for Enterprise Drive/Constitution Drive from Wolf Road to Cermak Road. This program provides funding of 80% of the project cost through federal participation passed through the Illinois Department of Transportation and requires a 20% local match for construction and construction engineering costs. This project is expected to be completed in November 2014.

Debt Service - GO Bonds Series 2013 Bond Fund

The Debt Service – GO Bonds Series 2013 Bond Fund was created in Fiscal 2013 to account for the debt service expenditures on the \$5,800,000 Series 2013 General Obligation (Alternate Revenue Source) Bonds issued on March 12, 2013 restricted for infrastructure improvement projects within the Village.

The fund will be financed by a transfer in from the Capital Projects Fund, where proceeds of the Non-Home Rule Sales Tax are recorded. The only expenditure in this fund will be the principal and interest payments on the Series 2013 Bonds. Annual debt service expenditures approximate \$307,620 to \$410,120 through December 2032.

Utilities Fund

The Village purchases its water from the Broadview-Westchester Joint Water Agency (BWJWA), who in turn purchases their water from the City of Chicago. As a direct result of Mayor Rahm Emmanuel and the Chicago City Council unanimously passing Mayor Emmanuel's budget, an increase of 25% was added to the cost of Lake Michigan drinking water beginning January 1, 2012. An additional water purchase cost increase of 15% was imposed by the City of Chicago as of January 1, 2013. The cost of the water from the City of Chicago is passed onto the Broadview-Westchester Joint Water Agency (BWJWA). After considerable discussion, the BWJWA agreed it should only pass on the direct cost of the annual water increases to its' participating municipalities. Effective January 1, 2012, the cost of 1,000 gallons increased from \$6.36 per thousand gallons to \$6.86 per thousand gallons of water. Effective January 1, 2013, the cost of 1,000 gallons increased from \$6.86 to \$7.10 to offset the increased water purchase cost. Effective January 1, 2014, the cost of 1,000 gallons increased from \$7.10 to \$7.75 to offset the increased water purchase cost.

The Fiscal 2015 budget includes the purchase of a new Vactor Truck in the amount of \$324,250. The purchase cost will be shared equally with the General Fund.

On December 2, 2013, the Village was awarded a water pollution control program loan obtained through the Illinois Environmental Protection Agency (IEPA) low interest loan program for the Sunnyside Sanitary Sewer Replacement Project. This project generally consists of work required to replace and reroute an approximate 1-mile long existing sanitary interceptor sewer located north and south of 31st Street on Sunnyside Avenue along Salt Creek on the southeast side of the Village. The project cost is estimated at \$2,450,000. The project is expected to be completed in September 2014. Debt service on the loan will be determined upon completion of the project.

On November 5, 2013, the Village was awarded a public water supply loan obtained through the Illinois Environmental Protection Agency (IEPA) low interest loan program to finance work required to prepare and paint the exterior of the existing potable water storage tank located approximately 1,250 feet south of the intersection of Cermak Road and Enterprise Drive. The project cost is estimated at \$845,000. Construction is expected to commence in March 2015. Debt service on the loan will be determined upon completion of the project.

On January 24, 2012, the Board approved a contract extension for refuse services with Waste Management until 2017. The contract extension provides for an increase in rates of 5% in the contract year ended June 30, 2013, 2.5% in 2014, 3.0% in 2015, 3.5% in 2016 and 4% in 2017.

On September 30, 2011, the Village was awarded a wastewater treatment works loan obtained through the Illinois Environmental Protection Agency (IEPA) low interest loan program. The IEPA financed \$852,111, payable over 20 years, to finance sewer improvements in the Highridge area of town which includes point repairs to the existing sanitary sewers where necessary, installation of a resin liner in the main sewer lines, and rehabilitating manholes. The project was completed in May 2013. Annual debt service on the loan is approximately \$49,400 through 2032.

In May 2010, The Village issued \$1,610,000 Taxable General Obligation Bonds, Series 2010B to fund infrastructure improvements to the Village's water and sanitary sewer system, specifically the repainting of the interior of the Village's water tower and water main replacements of Fleet and Preston Streets. The debt service on the Series 2010B Bonds will be made from utility revenue. The Series 2010B Bonds were Build America Bonds and, pursuant to the American Recovery and Reinvestment Act, the Village is eligible to receive a rebate from the U. S. Treasury Department of 35% of the interest paid each year. The Sequester Law enacted by Congress on March 1, 2013, reduced this rebate by 7.6%. The annual debt service on the Series 2010B bonds is approximately \$190,000 through FY 2021.

SUMMARY

The FY 2015 Budget provides funds necessary to finance the continuation of excellent service provided by Village departments to the community, as well as fund several major capital improvements.

While the principal causes of financial challenges faced by local governments over the last several years have come from the revenue side of the budget, expenditure containment and control need to be continually addressed to ensure that we continue to operate within our means. Staff will continue to work to hold down and reduce operating costs where possible.

Cooperation with groups such as the Metropolitan Mayors Caucus, Illinois Municipal League and the West Central Municipal Conference continues to be critical in maintaining a municipal view in Springfield and Washington D.C. on unfunded mandates issues, i.e. homeland security which was previously provided by the federal government, protection of municipal revenues and the future role of local governments in providing services and programs that have traditionally been provided by the federal/state government.

The budget document represents a significant effort on the part of the entire senior staff of the Village of Westchester. We would like to commend senior staff on their diligence and efforts in developing a professional and comprehensive budget document.

B. Potempa

Respectfully submitted,

Maureen B. Potempa Finance Director

Community Profile

Located approximately 14 miles west of Chicago in Cook County, the Village of Westchester encompasses a 4.5 square mile area and is home to 16,718 residents based on the 2010 United States Census. The Village was incorporated in 1925 and operates as a non-home rule unit of government. The village is primarily residential and commercial in nature, with housing stock consisting of 7,219 units.

The Village operates under a council-manager form of government as defined by the Illinois Municipal Code. The Village President, Village Clerk, and six trustees are elected at large to serve four year terms, with three trustees elected every second year. The Village Attorney is appointed by the Village President, with the advice and consent of the Village Board. The Village Manager is hired by the Village President and Board of Trustees. All department managers are hired by the Village Manager.

The Village Manager is the chief administrative officer of the Village and is responsible for its day-to-day operations. The Village Manager oversees a full-time staff of five department managers including Finance, Police, Fire, Public Works and Building.

The General Fund is the Village's primary operating fund. It accounts for the financial resources and uses traditionally associated with general government, except those required to be accounted for in a separate fund.

Revenues

The General Fund derives revenues from a variety of sources. General Fund revenues are separated into the following categories: Local Taxes, Licenses & Permits, Intergovernmental, Fines & Forfeitures, and other revenues. Total general fund revenue for the 2014-15 Fiscal Year is budgeted to be \$ 16,924,820. This represents an increase of \$3,015,346 or 21.68% from the 2013-14 Fiscal Year budgeted revenue of \$13,909,474. Further information on General Fund revenues is as follows:

Local Taxes

Local Taxes are taxes levied and imposed by the Village of Westchester.

Property Taxes — Property Taxes are levied by the Village of Westchester. They are based on the assessed value of real property located within the Village. Property values are assessed by Cook County. Taxes are also collected by Cook County and the Village's portion is remitted back to the Village. The property tax levy remains the greatest source of revenue to the Village's General Fund. The Property Tax Limitation Law limits the dollar amount levied from one tax year to another to the lower of 5% or the CPI (1.7% for the 2013 tax levy). The property tax levy is separated into three portions: General Purpose, Fire Pension, and Police Pension. The Police and Fire Pension amounts are paid directly to the pension funds, limiting the funds available for the General Purpose portion of the levy. This year's property tax levy included general purpose revenue of \$4,691,300, which represents a 2% increase over last year's general purpose levy. The Police and Fire Pension Funds combine to levy \$1,562,700, which represents a 4% increase over the prior year's levy. Combined, this year's total tax levy of \$6,254,000 is 2.6% greater than last year's tax levy of \$6,092,500.

Utility Taxes – The Village collects three types of utility taxes. There is a 6% tax on telephone gross receipts, a 5% equivalent electric tax based on consumption, and a 5% gross receipts natural gas tax. The Village is forecasting a nominal change in electric taxes and a reduction of natural gas taxes. Since Electric and Natural Gas taxes are based on consumption, they fluctuate with weather, usage, and the price of natural gas. The 6% telecommunications tax is based on the amount of telecommunication services our residents purchase. Telecommunication taxes this year have come in over budget, therefore projected income for 2014-15 is increased to \$825,000, which is an increase of 4% over last year's budget of \$795,000.

Places For Eating Tax – The 1% Places for Eating Tax became effective October 1, 2006. For the coming fiscal year, we are budgeting \$200,000, which is a increase from last year's budget. This tax is regarded as a good barometer of the local economy.

Foreign Fire Insurance - These funds are received from insurance companies based outside of the State of Illinois that insure businesses within the Village. They are taxed at a rate of 2% and these funds pass directly through the General Fund and are paid out to the Foreign Fire Insurance Board. The expense offsetting this revenue stream is seen in the Fire Department portion of this budget.

Amusement Tax – The Village collects 3% on all amusement sales. The primary source of revenues derived for this budgeted item comes from the golf course in town.

Gaming Tax – The Village currently issued two establishments licenses to operate video gaming terminals.

Video Rental Tax – The Village collects 8% on all video rentals.

Cable TV Tax – The Village assesses a 5% tax on cable TV subscriptions. The revenue has increased in recent years both due to an increase in cable rates and the integration of AT&T cable services in the Village.

Licenses and Permits

Building Permits – The amount of fees generated from building activities is expected to increase to \$500,000 for the coming fiscal year in part to new businesses coming to Westchester. Historically, building permit revenue has fluctuated from year to year.

Compliance Permits – The Village collects revenue for inspections performed during the building and remodeling process. Village Building Inspectors verify that work done in the Village complies with federal, state, and local building safety codes. Compliance permit revenue is coming in over budget. This is a result of increased compliance with inspection guidelines. The Village will budget for revenues next year to be comparable to those actually received during the current year.

Health & Elevator Inspection Fees — The Village pays for health inspections required at local businesses and passes the direct cost onto the applicable business. The elevator inspection fee was updated during the 2011/12 Fiscal Year to include an administrative fee. Current rates for these inspections are \$80 for a Health Inspection and \$60 for an Elevator Inspection.

Planning & Zoning Fees – These fees are nominal and are charged only when the Planning and Zoning Commission is required to meet and assess a recommendation to the Village Board.

Business Licenses – This revenue stream includes licenses for signs, solicitors, and general business. Revenues for the 2014-15 Fiscal Year are projected to increase slightly, based on the 2013-14 actual collections.

Contractor Licenses – The Village requires contractors wishing to receive a building permit within the Village to be licensed. The licensing process involves providing proof of insurance and bonding. These revenues are expected to remain constant.

Liquor License - Fees for the license required to sell liquor within the Village.

Tobacco License – This revenue stream is for the licenses required for tobacco sales.

Vehicle Licenses – The Village issues a license to all vehicles registered within the Village. Licenses are available for purchase during March and April and must be displayed by May 1st. Stickers purchased on or after May 1st are subject to a late fee equal to the cost of the sticker. The late fees are recognized in the revenue line "Late Fee – Vehicle Stickers".

Intergovernmental

The Village of Westchester's intergovernmental revenue streams are comprised of the municipal share of taxes levied by the State of Illinois and State and Federal grants or reimbursement programs. Further detail on intergovernmental revenue is as follows.

Personal Property Replacement Tax – Replacement taxes are revenues collected by the State of Illinois and paid to local governments to replace money that was lost by local governments when their powers to impose personal property taxes on corporations, partnerships, and other business entities were taken away. The budget figure for 2014-15 remains relatively flat when compared to 2013-14.

State Income Tax – Income tax is paid by residents to the state at a rate of 5% of the Federal Adjusted Gross Income. The state then remits a portion of this back to municipalities on a per capita basis. The Village is projecting revenues will be just over \$1.6M.

Local Use Tax - Local Use Tax is levied by the State of Illinois for the privilege of using, while in Illinois, any item of tangible personal property that is purchased anywhere at retail. The tax is imposed on the user of the item; however in most cases the tax is paid by the retailer when filing their state tax return. The Local Use Tax rate is 6.25% on general merchandise (including automobiles and other items that must be registered). The rate is 1% on qualifying food, drug, or medical appliances. Twenty percent of the general merchandise collections and one hundred percent of the food, drug, or medical appliance collections are remitted to municipal governments on a per capita basis. The Illinois Municipal League projects that for the 2014-15 Fiscal Year, the Local Use Tax per capita rate will be \$17.80. This rate multiplied by the Village's population of 16,718 would net the Village \$297,500.00 in Local Use Tax revenue.

Grants – There are several grants that have been applied for that the Village is budgeting to receive. The Village is anticipating \$209,890 towards the purchase of generators and an upgrade to the Village Hall Fire Alarm System. The offsetting expense is identified in the Public Works portion of this budget. The Village is also anticipating funding from the Metropolitan Water Reclamation District with revenues totaling \$2,121,000 toward the Mayfair Reservoir Expansion Project. The expense portion of this project is identified in the Public Works portion of this budget.

State Police Reimbursements – The Illinois State Police offer funds to supply additional patrol coverage. The revenue received in this line should be directly offset by a corresponding expense in the police department budget.

Charges for Service

Rent – The Village receives rental revenue from the US Postal Service, as the Village owns the building used by the Post Office. The Village also receives rental revenue from cell phone providers for cell phone towers placed on Village property. Rental revenue is based on contract, and there are only nominal increases projected.

Ambulance Fees – These fees are assessed when the Westchester Fire Department responds to an emergency call. The fees are billed and collected by a third party.

Newspaper Ads — These fees are charged to various businesses wishing to advertise in the Westchester Newsletter, a monthly publication produced by the Village and available for free to Village residents. The advertising revenue collected offsets the expense of producing and distributing the newsletter.

Fines & Forfeits

Alarm Fines – The Village charges \$28/month for wireless alarm fees (net of \$20/month after charges). One third of this income is used to fund public education and safety programs through the Fire Department.

Police Fines – Fines assessed by the Westchester Police Department in accordance with the Village of Westchester Municipal Code. Revenues for 2014-15 are expected to be in line with actual projected collections for 2013-14.

Circuit Court Fines – Fines collected by the Circuit Court of Cook County and remitted to the Village. Collections for 2014-15 are expected to be in line with actual projected collections for 2013-14.

Code Enforcement Fines – Fines assessed by the Village for violations of Village code.

Photo Enforcement – In December 2013, the Village contracted with Safe Speed photo enforcement to replace the cameras at the intersections of Cermak and Mannheim Roads (southbound on Mannheim) and also at the intersection of Roosevelt and Mannheim Roads (westbound on Roosevelt and Northbound on Mannheim). The revenue is expected to increase from 2013-14 due mostly in part that there will be fully functional cameras for the entire fiscal year. In the prior year revenue was decreased due to the lapse in service.

Police Towing – On March 24, 2009, the Village Board approved an ordinance in regards to the impoundment of a motor vehicle used in the commission of certain offenses, which called for a civil penalty not to exceed \$500.

Other Income

Interest Income – Interest income is derived from cash balances and investments that the Village holds, pursuant to the Village's investment policy. Rates over the previous several years have been historically low. The Village does not project any significant changes in interest income over the next fiscal year.

Sale of Fixed Assets – Occasionally the Village will find itself in possession of a fixed asset that it no longer has a functional use for. In such an instance, the asset would be sold at auction with the consent of the Village Board.

Reimbursements – Reimbursement revenue is derived from several sources. The largest portion of the Village's reimbursement revenue comes from the employee share of health benefits. Employee contribution to health insurance varies by union contract. Non-represented employees contribute 10%

of the cost of health insurance. Other types of reimbursements include gas use from the schools and Park District.

Rebate – Cook Co Gasoline Taxes – Cook County will provide a rebate to municipalities within the county for gasoline taxes paid on fuel purchased by the Village for municipal use. Revenue is applied for and received once annually.

Sidewalk – The Village partners with interested residents to replace sections of sidewalk that are in need of repair. Residents interested in participating in this program contact the Public Works department, and, if approved, the cost of sidewalk replacement is split 50/50 between residents and the Village. This revenue line is to track the residents' portion of the sidewalk replacement.

Tree Program – The Village partners with interested residents to replace parkway trees. Residents can choose from five varieties of trees to replace their dying or damaged parkway trees. The cost of the replacement trees is split 50/50 between residents and the Village.

Taxicab Program – In an effort to assist seniors in Westchester get around town, the Village offers seniors in the community cab vouchers valued at \$20 of cab service for a purchase cost of \$10. Cab services used on these coupons are only valid within the Village of Westchester.

Miscellaneous Other Income – Occasionally the Village will receive revenue that is nonmaterial in nature and is not expected to be recurring. In such instances, the Village will recognize this revenue under Miscellaneous Other Income.

Detail of General Fund revenues appears on the following page.

Comparison of General Fund revenue by Year

Composition of General Fund Revenue by Type

General Fund Expenditures

The General Fund is organized by department. The following departments exist in the General Fund:

- Administration
- Planning and Zoning Commission
- Building
- Board of Fire and Police Commissioners
- Dispatching
- Police
- Emergency Management
- Fire
- Public Works

Several fund-wide expenditure summaries appear on the following pages. Following that is detail for each of the departments in the General Fund.

Administration/Finance Department

The Administration/Finance Department includes the Legislative, Village Manager and Finance divisions of the Village. The Village Manager is appointed by the Mayor with the consent of the Village Board. Village staff report to the Village Manager. It is the role of the Village Manager to direct staff in the daily administration of village services.

Other areas of Administration include:

- Human Resources
- Village Clerk
- Public Relations
- Adjudication
- Legal Services
- Community Events

The Finance area oversees:

- Accounts Payable
- Accounts Receivable
- Revenue collection
- Payroll
- Budget performance
- Preparing the Village's annual tax levy
- Maintaining the Village's debt schedules

Notable changes in this year's Administration and Finance budget include a request to change the Front Office Clerk from part time to full time.

Plan Commission / Zoning Board of Appeals

The Plan Commission makes recommendations on:

- Changes to the Village's Comprehensive Plan
- Special uses
- Text amendments to the Village's Zoning Ordinance

The Zoning Board of Appeals makes recommendations on:

- Variations to the Zoning Ordinance
- Appeals of decisions by the Director of Community Development

Both commissions are only recommending bodies. The Village Board has the right to accept, reject or modify the recommendation of these commissions.

The Plan Commission makes recommendations on or changes to the Village's comprehensive plan and zoning code. The Zoning Commission makes recommendations on variations to the zoning code. Decisions by either commission must be approved or denied by the Village Board.

No significant changes are projected for the 2014-15 fiscal year.

Community Development Department

The Community Development Department is responsible for economic development, building permitting, and planning & zoning. There are many tasks that Community Development is responsible for within these disciplines. The Department's mission is to encourage a healthy, safe and prosperous community through programs and activities that benefit the residential and business sectors.

ECONOMIC DEVELOPMENT

- Business Recruitment
- Assists potential businesses with site selection
- Business Retention
- Marketing the Village
- Information Dispersion
- Communication with Business Sector
- Staff Liaison to the Economic Development Commission
- Represent the Village at various regional events
- Implementing Village policies related to economic development
- Various Studies

BUILDING PERMITTING

- Building Plan Review & Processing
- Issue Permits for various types of building activities, including, but not limited to, demo, reconstruction, rehab, and residential accessory structures like pools, patios, driveways.
- Review Plans for mechanical, electrical, plumbing, structural, energy conservation code
- Perform inspections of mechanical, electrical, plumbing, structural and health and sanitation inspections
- Processing Permit (Collecting Bond, Insurance, and Licenses, coordinating approvals.)
- Coordinate reviews with other department
- Building Code update
- Code interpretation
- Information Dispersion (handouts, flowcharts)

PLANNING AND ZONING

- Process rezoning, variations, special uses, subdivisions, planned unit developments
- Review New Development
- Guide Applicants through the Entitlement Process
- Long Range & Short Range Planning (i.e. Comprehensive Plan update and sub-area plans)
- Coordinate with other departments
- Coordinate with other agencies (IDOT, IEPA, Cook County)
- Information Dispersion
- Zoning Code Administration
- Staff liaison to the Plan Commission and the Zoning Board of Appeals
- Provides demographic information

The total budget for the Community Development Department is expected to increase. There are minor increases to conferences & training, dues & subscriptions, maint. services — equipment, but the bulk of

the increase is due to an increase in other contractual expenses. Below you will find a brief explanation for the increase in the budget for next fiscal year.

- 1. *Other Contractual Expenses:* This line item needed to be increased to cover an increase in fees for health inspections
- 2. **Professional Services:** Currently, the Village has adopted the 2000 International Building Code. In response to the update there will be an increase in inspections and reviews.
- 3. **Conferences & Training:** Department staff requires ongoing training to stay current on trends and techniques in the construction industry and best practices in planning and economic development. In order to increase the level of professionalism in the Department, training is required for all members of staff.
- 4. *Maint. Services Equipment:* This line item will increase to allow for subscriptions to SurveyMonkey, Constant Contact, Retail Lease Trac or Plain Vanilla Shell, and an additional user account on the building permit software.

Fire & Police Commission

The Fire and Police Commission provides for hiring and promotions to sworn personnel in the Fire and Police departments. Additional duties include hearing disciplinary and termination cases regarding sworn personnel. Eligibility lists for police officers and firefighters are good for two years, while promotional testing for fire lieutenants and captains, as well as police sergeants and lieutenants are good for three years.

The budget for the Fire and Police Commission represents a nominal increase in professional services to accommodate for testing and hiring procedures.

Police Department

The Mission of the Westchester Police Department is to work with all citizens to preserve life, maintain human rights, protect property, and promote individual responsibility and community commitment. Our department's goal is to assist citizens in preventing crime. Our department's focus is to serve the community at large, improve community awareness, and to continue citizen education by offering tips how not to be a victim of a crime.

The department is budgeted with three divisions: operations, records, and emergency management. The Operations Division consists of items related to providing services to the community. The Records Division consists of the salaries of the record clerks that maintain all of the official police documents. Emergency management consists of planning and preparation to address major emergencies within the Village, i.e. flooding, tornados.

Emergency Management

The Emergency Management division of the Village operates to ensure adequate response to a variety of emergency events that may occur in the Village.

The Emergency Management Agency is made up of volunteers and collaborates with the Police Department. This budget includes the addition of a small stipend for the Emergency Management Agency Coordinator, who currently serves as a volunteer.

Fire Department

Westchester Fire Department Mission Statement

The Mission of the Westchester Fire Department is to adequately provide for the protection of lives and property for the community. The Fire Department will respond to and assist the community when incidents including fire, medical, specialized rescue, hazardous materials, natural and manmade disasters, and all other matters generally accepted as the responsibility of the Fire Department occur.

Westchester Fire Department

The Village of Westchester Fire Department serves 16,718 residents in a community over 4.4 square miles. Westchester consists of 7,123 housing units, with 35% of our population consisting of children under 14 and adults over 65 years old. As you are aware, Westchester is home to its own grade school district, Divine Infant School, Divine Providence School, St. Joseph High School, two community centers, and numerous churches. Westchester is positioned in the main transportation corridor into Chicago. The Village is also home to Westbrook Corporate Center that increases our daily population to over 30,000 people. Although we are mainly residential, we are home to many small businesses and light manufacturing facilities.

The Westchester Fire Department is a Class 3 ISO rated fire department. We provide fire suppression, ALS Emergency Medical Services, fire prevention, public education, fire investigation, hazardous materials mitigation, and various levels of technical rescue services. Westchester provides one of three technical rescue units in the region and supplies equipment and manpower to the State of Illinois Terrorism Task Force Technical Rescue Response Team as well as the regional and statewide Hazardous Materials Response Team.

The Westchester Fire Department is a career 28 member fire department. We utilize the traditional 3 platoon system. Operations occur from two fire stations, staffed 24 hours a day, 7 days a week, 365 days a year. Our current fleet of apparatus consists of (2) Engines (2008, 2009), (1) Quint ladder truck (1999), (2) ALS ambulances (2005, 2007), Technical Rescue Trailer (1996) pulled by (1) F350 pickup truck (1997), (2) automobiles (2001, 2009), and the popular Fire Safety House (1994). All except one ambulance and one engine are staffed and in full service. In addition to our first due response, we are also auto-aid companies to the communities of Hillside, Bellwood, Broadview, and Oak Brook, increasing our initial primary response area to over 20 square miles and a total residential population of over 64,300 people.

2013 Fire Department Update

The Village, as a whole, has been working diligently on updating policies and procedures that were either non-existent or needed to be reviewed and updated to help reduce various safety risks for its employees and their residents. The fire department, along with reviewing the current risk management models, has also begun the daunting task of reviewing, updating, and creating our Standard Operating

Procedures (SOPs) and Standard Operating Guidelines (SOGs). The process is being done as to look at if the fire department is using the best practices available for our members' safety. Along with the safety aspect, the end goal is to have an easily accessible and user friendly set of SOPs and SOGs for all members to use for their benefit.

Although the Fire Department has used FIREHOUSE software for its reporting system, we recently upgraded to FIREHOUSE Web allowing access of this reporting software, anywhere there is a secure internet connection. We have also expanded our use of this software to include maintenance records, inventory records, hydrant records, hose records, public education appearances, and training.

After approximately 9 months of planning, gathering data and collaboration between departments, the Village made the final transition and completed the process of outsourcing their dispatch services. On November 1st, we "flipped the switch" and started a new relationship with NORCOMM. They are a 911 dispatch center that provides well-trained emergency dispatchers certified in Emergency Medical Dispatching, providing this service 24-7, 365 days a year. Although, nervous about the transition, after working through the "bumps" in the road, overall, NORCOMM has served the Village well in the first 5 months.

As a result of this transition, the Fire Department had to upgrade its in-house alerting system. After working through the 40 year old piece-meal alerting system that was in place, NORCOMM installed a new alerting system engineered by their technicians as a bridge until the ZETRON system can be put in place. If you recall, last year, prior to outsourcing dispatch, the Fire Department was in the process of finalizing the ZETRON system between the former dispatch center and the fire stations. When outsourcing became a reality, those plans were put on hold in order to transition over to NORCOMM. Now that the transition is complete, we are currently working with NORCOMM and Mercury Systems to get this in place. The ZETRON system allows for NORCOMM to immediately know if there is an issue with the equipment communicating between them and the fire stations. The system that is being used until the ZETRON is in place will then act as a backup if any issue should arise. Both new systems include "ramp up" alerting tones which reduce the stress while receiving an emergency call. In the past, a sudden alert sound would alert firefighters of an incoming call. This is a major safety improvement over the previous systems.

Fire Prevention Bureau

The 7G Fire Inspector program that has been in place has proven to be very successful. Our customer service to the businesses has been consistent. Compliance with violations has gone up due to regular inspections and follow up inspections being completed by the same inspector. This also shows a consistency while completing inspections ensuring safer businesses for owners and their customers. The Village Board also passed a residential sprinkler ordinance, requiring that all newly constructed single and two family housing have an approved NFPA 13R sprinkler system installed. We have also started the process of doing a code update in conjunction with the Building Department. The proposed updates and recommendations should be completed sometime in spring of 2014.

Pre-fire planning for buildings in town will be in full swing this spring as our migration to NORCOMM will allow greater access to this information in our vehicles that can be utilized during emergencies.

Along with our 7G Inspectors, on-duty fire companies will be going around town to collect this data and photos that will be used for this.

Public Education

The Fire Department has been holding CPR classes at least on a quarterly basis or as needs demand it. This class is offered at no charge to the students. We've attended numerous Career Days at the Westchester Middle and Intermediate Schools and St. Joseph High School. The Fire Department has also gone to the Westchester Primary School to read and interact with the students. They have also met with the various Civic groups throughout Westchester for appearances and any other requests that they may have.

Back in October, we held our annual Open House. We open up the Fire Department and show off our "wares". The highlight of the afternoon is always the Sprinkler room demonstration, where we set 2 rooms on fire and show the differences that a sprinkler system can make in saving someone's house. We also rolled out our grease fire demonstration, showing residents what to do and not to do in the case of a stove/oven fire. We look forward to this October 5, when we will have these demonstrations and much more.

Emergency Medical Services

As approved in last year's budget, the fire department purchased a 12 lead cardiac monitor that is being utilized on Truck 315 for advanced life support medical responses. It also serves as a backup for the 12 lead cardiac monitor that is used on the ambulance whenever that monitor needs to be sent out for service. Also approved in the budget was the purchase of a new ambulance. The ambulance is almost completed. Delivery will be by the end of March. After equipping the ambulance and getting it certified by the state, I'm hoping to have this vehicle in service in April 2014.

EMS User Fees that the Village has collected has gone up for the third year in a row. There are a few reasons for this. First, this will is the third year since the department has instituted the electronic patient care reporting, allowing for more accurate record keeping and faster record retrieval. Last year, we worked with Paramedic Billing Services and Loyola to allow them to access the records server directly which allows for real time billing and better collections from insurance, Medicare, etc. which in turn reduced their commission by 2%. This also allows for a better collection rate.

GRANTS

We awarded two grants during the end of the 2012 Assistance to Firefighter Grant period. We secured a \$465,000 Heavy Rescue Vehicle that is almost in-service. We were also awarded a portable radio grant for approx. \$60,000 which went towards the purchase of (21) APX 6000 Motorola Portable Radios. The total financial responsibility on the Village for BOTH of these grants was less than \$30,000. Training and Safety

During the summer months, we have sent another Firefighter to the 3 weeklong modules that are held by the state. This gives the Westchester Fire Department 2 Illinois State Certified Fire Investigators. We would like to get a minimum of one more certified this year as well. We have had a few fires over the last year that has been investigated by our own investigators, making it a worthwhile investment.

The department was able to place 4 firefighters on the MABAS Division 20 Technical Rescue Team Training Roster which enabled the Fire Department to train these individuals at virtually no cost to the Village. We also were able to place 2 firefighters on the MABAS Division 20 Hazardous Materials Training Roster as well allowing for this no-cost training as well. After all of these individuals receive all of the State Certifications that are required they will be placed on the Team Deployable Rosters resulting in possibly replacing them with more Westchester firefighters on those training rosters.

Over the last year, we were able to arrange an in-house Rope Ops. Class that certified 14 FFs (\$5,950 savings), Vehicle Machinery Ops.(\$1260 savings) and Confined Space Ops. (\$1720 savings) each class certifying 3 FFs and Hazardous Materials Tech for 1 FF (\$550 savings) through Division 20 TRT Training, and Vehicle Machinery Ops. Certifying 3 more FFs at a reduced rate through the Division 20 Training Academy (\$375 savings). Through these programs I was able save \$9,855 in last year's training budget.

MAINTENANCE

The Fire Department has been working with my maintenance officer to get our preventive maintenance back on track after a few years of being deficient in this area. We have also reviewed vendors in regards to vehicle maintenance and vendors which supply parts for our vehicles to make sure that the village is receiving the best service for the best value. The building maintenance officer walked through the fire stations which now are close to 60 years old to evaluate them and start planning for future repairs and upgrades that may be necessary. We were pleasantly surprised that only a few minor repairs are needed at this point.

Historically, the Fire Department has always been pretty self-sufficient when it comes to the maintenance and general repairs around the fire stations. Other than routine HVAC and overhead door maintenance that is done by a professional, we had the Northwest corner of station# 1 tuck pointed which alleviated a long on-going leak issue that we've had. Although we've never had any major roofing issues, it is probably time to start considering possible re-roofing of both fire stations.

Public Works

The Public Works Department provides essential services which enhance the lives of residents, businesses, and the community in general. Maintenance of public right of ways which promote public safety are the primary function of the department which include pavement patching, resurfacing, crack filling, pavement striping, snow and ice removal, tree trimming, removal of dead or diseased/dying parkway trees, maintenance and replacement of traffic signs, brush collection, street sweeping, maintenance of public buildings and property, fleet maintenance, storm sewer cleaning and repairs, leaf collection, street light repair, curb and gutter replacement, sidewalk replacement, catch basin cleaning, and storm water management.

The Department also works closely with community groups and other Village departments to provide assistance as needed.

Infrastructure Improvements

Infrastructure Improvements was a newly created department during the 2012-13 FY Budget. This department was used to separately track the expenses for the Fall 2012 Street Improvement Project within the Village. The aggregate cost of these improvements was subsequently reimbursed by the 2013 Alternate Revenue Bonds issued in early 2013 supported by the 1% Non Home Rule Sales Tax.

Future expenses for street improvements supported by the 2013 Bond Issuance will be tracked in the newly created Capital Projects Fund.

Utilities Fund

The Utilities Fund is operated as an enterprise fund, and therefore seeks to utilize business-type operations to provide water, sanitary sewer, and refuse services to the Village. The Utilities Fund includes water distribution, sewer transmission, and refuse collection.

Westchester receives its water from the Broadview Westchester Joint Water Agency, which contracts with the City of Chicago to purchase a Lake Michigan Water Allocation. Village wastewater is processed through the Metropolitan Water Reclamation District. Refuse collection in the Village is on a contract with Waste Management.

The Village currently has 6,872 residential utilities accounts, 240 commercial accounts, and 11 industrial accounts. Utility customers are billed quarterly for water, sewer, and refuse service.

Revenues

The primary sources of revenue in the Utilities Fund are user fees.

Charges for Service

Refuse Collection – The Village collects revenue to pay for refuse collection in the Village.

Water Sales – A nominal increase is budgeted on water rates to offset the 4% increase passed on to the Village from the Broadview Westchester Water Agency.

Meter Sales – Commercial customers in the Village purchase their own water meters. Revenue from these sales occurs only during new construction or renovations/repairs on existing property.

Sewer Fees – A nominal increase is budgeted on sewer rates to offset capital sewer needs.

Penalties – A penalty of 10% is imposed on past due balances.

Other Income

Interest income – No significant increases are expected on interest income Village-Wide as rates of return on Village

Reimbursement – The utilities fund receives reimbursement for the leaf bag program and from the employee share of health insurance costs deducted during the payroll process.

Detail of Utilities Fund Revenues appears on the following page.

Utilities Fund Expenditures

The largest portion of expenditures in the Utilities Department is contractual services. These are comprised of fees paid to Waste Management for refuse collection and to the Broadview Westchester Water Agency to purchase water for the Village. Only nominal increases are applied to these expenses for the 2014-15 fiscal year to accommodate increases charged to the Village.

The personnel services portion of the Utilities Department budget represents costs established through collective bargaining agreements.

Detail of Utilities Fund Expenditures appears on the following page.

The Motor Fuel Tax Fund is used to account for the receipt of the State's MFT allotment to the Village. The State allocates MFT funds on a per capita basis. The State of Illinois places restrictions on the use of these funds, as such the Motor Fuel Tax operates as a Special Revenue Fund.

Revenues

The primary source of revenue in the Motor Fuel Tax Fund is the MFT allotment from the State of Illinois.

Intergovernmental

Allotment Income – The distribution of MFT revenue is based on population. The Illinois Municipal League is predicting that the local share of Motor Fuel Tax revenue will decrease by 1.4% to a per capita rate of \$24.30. This projection includes several unknown factors, the largest of which being the potential increase in the cost of gasoline.

Other Income

Interest Income – The Village anticipates spending cash on hand to finish some road projects and therefore depleting some fund reserves from previous years; therefore interest earnings in for the 2013-14 Fiscal Year are expected to be minimal.

Misc Other Income – This amount is derived from the credit the Village receives from the Build America Bonds in conjunction with the 2010A Bond Issuance.

Village of Westchester Budget for the Fiscal Year Beginning 5/1/2014

The Emergency 911 Fund operates as a Special Revenue Fund. Special Revenue Funds are used when a dedicated revenue source has legal restrictions placed upon its use. In this case, Emergency 911 Taxes (both locally imposed and the local share of State taxes) are recorded in this fund for the purpose of operating and maintaining a dispatch center for emergency communication. Emergency 911 expenditures are recorded both in this fund and in the General Fund.

Revenues

Local Taxes

Landline 911 Tax - The Village imposes a \$1.50 per line tax on landlines. A small decrease in this revenue stream is noticed as consumers choose to eliminate their landline service in favor of wireless phones.

Intergovernmental

Wireless 911 Tax - A 911 cellular phone tax is collected by the State with a portion of it (currently around \$0.48/phone) remitted back to the Village.

Charges for Service

911 Alarm Fees – The Village charges \$13.50/month for wireless alarm fees. During the 2011/12 Fiscal Year, these fees were moved to the General Fund.

Other income

Interest Income – Interest in the E911 Fund is expected to be nominal as the Fund does not maintain a large cash balance.

Expenditures

The expenditures in this fund relate to the communication infrastructure within the Village. The breakdown of these expenditures has changed drastically due to the Village's outsourcing of 911 dispatching.

Village of Westchester Budget for the Fiscal Year Beginning 5/1/2014

The Hotel/Motel Fund operates as a Special Revenue Fund. Special Revenue Funds are used when a dedicated revenue source has legal restrictions upon its use. In this case, the Hotel/Motel tax is restricted for the use of tourism related expenditures within the Village. Previously, these tourism expenses largely related to the Westchester Fun Fest expenses. Last year brought about a change for tourism and community events within the Village. We hosted a variety of smaller events throughout the year designed to foster community spirit and cultivate a welcoming, entertaining, and inviting environment for residents and visitors of Westchester. We plan to once again offer the community and visitors with events which cater to a variety of tastes. These events are planned and executed by a team of staff and volunteers.

Revenues

Intergovernmental

Hotel/Motel Tax – Hotel/Motel Tax is collected at a rate of 5% and is received quarterly from vendors in the Village. Hotel/Motel Tax revenues are expected to remain flat.

Other Income

Interest Income – Interest is expected to be nominal due to both the relatively low cash balance kept in the fund as well as low interest rates in the market.

Event Sponsorship— The bulk of event sponsorship was received for the largest event, the BBQ Block Party. The team plans to offer event sponsorship opportunities in the next season as well. This additional revenue is expected to remain flat.

Expenses

Since Westchester will again be hosting a variety of events, the expenses will be attributed to these. Expenses are broken into Contractual Services, Personnel Costs associated with staffing events, and Commodities. Expenses are projected to be higher than last year, due to more accurate budgetary numbers based on last year's event experience.

Village of Westchester Budget for the Fiscal Year Beginning 5/1/2014

The Debt Service fund was created by ordinance in conjunction with the 2013 Bond Issue. It's use is to separately track the bond payments.

Revenues

The only revenue in this fund will be a transfer in from the Capital Projects Fund, where the Non Home Rule Sales Tax is recorded.

Expenses

The only expense in this fund will be the bond payments for the 2013 Alternate Revenue Bonds.
