INDEPENDENT AUDITOR'S REPORT

May 20, 2024

The Honorable Village President Members of the Board of Trustees Village of Westchester, Illinois

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Westchester (the Village), Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Westchester, Illinois, as of April 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and supplementary pension and other post-employment benefit (OPEB) schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Village of Westchester, Illinois May 20, 2024

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Westchester, Illinois' basic financial statements. The other supplementary information and supplemental schedules are is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 20, 2024, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Village's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

May 20, 2024

The Honorable Village President Members of the Board of Trustees Village of Westchester, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Westchester (the Village), Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated May 20, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Village of Westchester, Illinois May 20, 2024

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis April 30, 2022

Our discussion and analysis of the Village of Westchester (Village), Illinois' financial performance provides an overview of the Village's financial activities for the fiscal year ended April 30, 2022. Please read it in conjunction the Village's financial statements, which can be found in the basic financial statements section of this report.

FINANCIAL HIGHLIGHTS

- The Village's net position increased as a result of this year's operations. Net position of the governmental activities decreased by \$2,463,462, or 6.7 percent and net position of business-type activities increased by \$4,895,449, or 43.9 percent.
- During the year, government-wide revenues for the primary government totaled \$33,664,757, while expenses totaled \$31,232,770, resulting in an increase to net position of \$2,431,987.
- The Village's net position totaled a deficit of \$23,365,989 on April 30, 2022, which includes \$26,367,897 net investment in capital assets, \$5,210,894 subject to external restrictions, and deficit \$54,944,780 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported an increase this year of \$1,332,583 or 29.1 percent, resulting in ending fund balance of \$5,908,176.
- Beginning net position and fund balance was restated to correct errors in capital expenses/expenditures and other post employment benefits.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Village as a whole and present a longer-term view of the Village's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village's operations in more detail than the government-wide statements by providing information about the Village's most significant funds. The remaining statements provide financial information about activities for which the Village acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Village's finances, in a matter similar to a private-sector business.

The Statement of Net Position reports information on all of the Village's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the Village's property tax base and the condition of the Village's infrastructure, is needed to assess the overall health of the Village.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Management's Discussion and Analysis April 30, 2022

USING THIS ANNUAL REPORT - Continued

Government-Wide Financial Statements - Continued

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village include general government, public safety, and public works. The business-type activities of the Village include waterworks and sewerage.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into three categories; governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Village's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Motor Fuel Tax Fund, Roosevelt TIF Fund, 911 Fund, Capital Projects Fund, and Debt Service Fund, which are considered major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The Village adopts an annual appropriated budget for all of the governmental funds, except for the Police Forfeiture Fund, Police Pension Fund, and Firefighters' Pension Fund. A budgetary comparison statement for these funds has been provided to demonstrate compliance with this budget.

Management's Discussion and Analysis April 30, 2022

USING THIS ANNUAL REPORT - Continued

Proprietary Fund

Enterprise funds are used to report the same functions presented as business-type activities in the government—wide financial statements. The Village utilizes enterprise funds to account for the provisions of water and sewer services to the residents of the Village.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Waterworks and Sewerage Fund, which is considered to be a major fund of the Village.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The accounting use for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's I.M.R.F., police and fire employee pension obligations, other post-employment retirement benefit obligations, and budgetary comparison schedules for the General Fund and major special revenue funds. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions.

Management's Discussion and Analysis April 30, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Village, assets/deferred outflows fell short of liabilities/deferred inflows by \$23,365,989.

	Net Position							
	Governmental Business-Type							
		Activ	ities	Activ	ities	Totals		
		2022	2021	2022	2021	2022	2021	
Current Assets	\$	25,819,467	34,918,000	4,162,008	2,598,255	29,981,475	37,516,255	
Capital Assets		33,620,859	26,648,865	17,314,217	13,248,006	50,935,076	39,896,871	
Other Assets		1,653,234	530,865	1,112,327	155,542	2,765,561	686,407	
Total Assets		61,093,560	62,097,730	22,588,552	16,001,803	83,682,112	78,099,533	
Deferred Outflows		22,032,954	26,362,549	60,676	36,628	22,093,630	26,399,177

Long-Term Liabilities		92,558,001	105,667,967	3,779,160	3,720,459	96,337,161	109,388,426	
Other Liabilities		6,818,486	4,279,678	585,236	575,825	7,403,722	4,855,503	
Total Liabilities		99,376,487	109,947,645	4,364,396	4,296,284	103,740,883	114,243,929	
Deferred Inflows		23,152,121	15,545,160	2,248,727	440,437	25,400,848	15,985,597	
Total Liabilities/Deferred Inflows		122,528,608	125,492,805	6,613,123	4,736,721	129,141,731	130,229,526	
Net Position								
Net Investment in Capital Assets		12,882,994	12,196,441	13,484,903	9,426,207	26,367,897	21,622,648	
Restricted		4,098,567	4,213,960	1,112,327	_	5,210,894	4,213,960	
Unrestricted (Deficit)		(56,383,655)	(53,442,927)	1,438,875	1,875,503	(54,944,780)	(51,567,424)	
Total Net Position		(39,402,094)	(37,032,526)	16,036,105	11,301,710	(23,365,989)	(25,730,816)	

A portion of the Village's net position, \$26,367,897, reflects its investment in capital assets (for example, land, construction in progress, land improvements, buildings, building improvement, machinery and equipment, software, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$5,210,894, of the Village's net position represents resources that are subject to external restrictions on how they may be used. The remaining deficit of \$54,944,780 represents unrestricted net assets and may be used to meet the government's ongoing obligations to citizens and creditors.

Net Position - Beginning as Restated	(36,938,632)	(32,158,336)	11,140,656	9,913,968	(25,797,976)	(22,244,368)	
Net Position - Ending	(39,402,094)	(37,032,526)	16,036,105	11,301,710	(23,365,989)	(25,730,816)	

Net position of the Village's governmental activities decreased by 6.7 percent (a deficit of \$39,402,094 in 2022 compared to a deficit of \$36,938,632 in 2021). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled a deficit of \$56,383,655 at April 30, 2022.

Net position of business-type activities increased by 43.9 percent (\$16,036,105 in 2022 compared to \$11,140,656 in 2021).

Management's Discussion and Analysis April 30, 2022

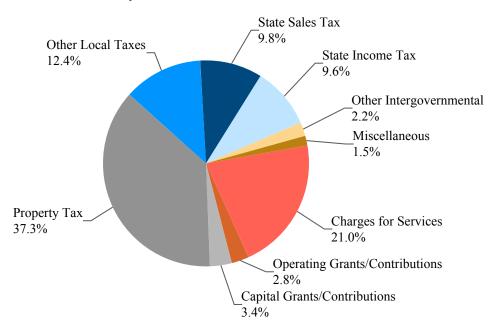

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Governmental Activities

Revenues for governmental activities totaled \$27,686,612, while the cost of all governmental functions totaled \$25,944,928. This results in a surplus of \$1,741,684, prior to transfers out of \$4,205,146. In 2021, revenues of \$21,271,236 fell short expenses of \$26,145,426, resulting in a deficit of \$4,874,190. The surplus before transfers in 2022 was due to additional property tax revenue from a new levy for the 2021 bond referendum, along with other intergovernmental tax revenue increases. Expenses decreased due to personnel costs related to vacant positions throughout the year.

The following table graphically depicts the major revenue sources of the Village. It depicts very clearly the reliance of property taxes to fund governmental activities. It also clearly identifies the less significant percentage the Village receives from charges for services.

Revenue by Source - Governmental Activities

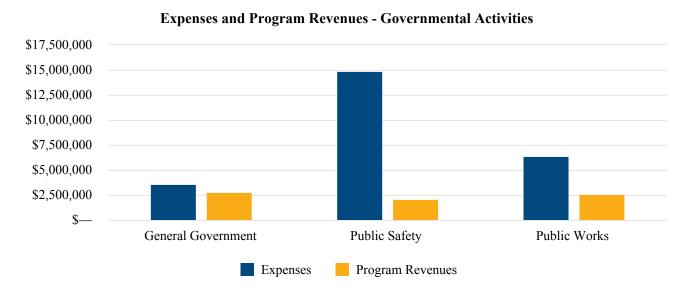

Management's Discussion and Analysis April 30, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

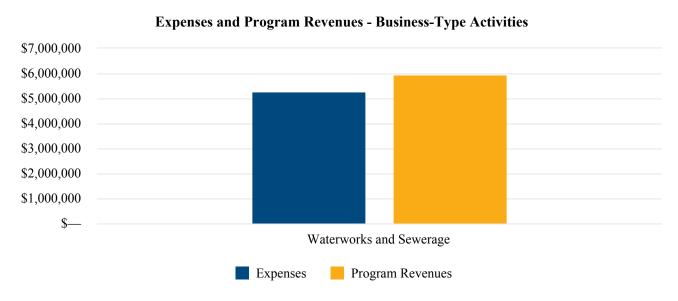

Governmental Activities - Continued

The 'Expenses and Program Revenues' Table identifies those governmental functions where program expenses greatly exceed revenues.

Business-Type Activities

Business-type activities posted total revenues of \$5,978,145, while the cost of all business-type activities totaled \$5,287,842. This results in a surplus of \$690,303, before transfers in of \$4,205,146. In 2021, revenues of \$6,289,894 exceeded expenses of \$4,902,152, resulting in a surplus of \$1,387,742. The surplus in the current year is due to overall expenses being under budget and the IMRF pension experiencing net pension revenues for the year due to significant investment income.

Management's Discussion and Analysis April 30, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Village's governmental funds reported combining ending fund balances of \$17,040,210, which is \$10,842,122, or 38.9 percent, lower than last year's total of \$27,882,332. Of the \$17,040,210 total, \$3,732,006, or approximately 21.9 percent, of the fund balance constitutes unassigned fund balance.

The General Fund is the chief operating fund of the Village. At April 30, 2022, unassigned fund balance in the General Fund was \$5,451,121, which represents 92.3 percent of the total fund balance of the General Fund. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance in the General Fund represents approximately 28.8 percent of total General Fund expenditures.

The fund balance in the General Fund at year-end was \$5,908,176, while the previous fiscal year reported a fund balance of \$4,575,593. This is an increase of \$1,332,583, or 29.1 percent. The increase is due to strong intergovernmental revenues exceeding the budget by almost \$1.2 million and one-time miscellaneous revenue.

The fund balance in the Motor Fuel Tax Fund at year-end was \$3,367,492, while the previous fiscal year reported a fund balance of \$4,143,347. This is a decrease of \$775,855, or 18.7 percent. The decrease is due to a spend-down of bond proceeds that were received in a prior year.

The fund balance in the Roosevelt TIF Fund at year-end was deficit \$1,322,655, while the previous fiscal year reported a deficit fund balance of \$1,852,758. This is an increase of \$530,103, or 28.6 percent. The increase is due to the incremental tax revenue that exceeds the fund's expenditures.

The fund balance in the 911 Fund at year-end was deficit \$330,193, while the previous fiscal year reported a deficit fund balance of \$247,734. This is a decrease of \$82,459, or 33.3 percent. The decrease is due to expenditures that exceed the potential reimbursement from the E911 agency.

The fund balance in the Debt Service Fund at year-end was \$1,193,805, while the previous fiscal year reported a fund balance of \$89. This is an increase of \$1,193,716, or 1,341,254 percent. The increase is due to the first year of property tax collections for the 2021 general obligation referendum bond issue.

The fund balance in the Capital Projects Fund at year-end was \$8,060,612, while the previous fiscal year reported a restated fund balance of \$21,151,802. This is a decrease of \$13,091,190, or 61.9 percent. The decrease is due to spending down the bond proceeds for infrastructure projects from the 2021 general obligation referendum bond issue.

Management's Discussion and Analysis April 30, 2022

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

Proprietary Funds

The Village's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The Village reports the Waterworks and Sewerage Fund as a major fund. The Village intends to run the fund at a breakeven rate. Periodically, there will be an annual surplus or draw down due to timing of capital projects.

The net position in the Waterworks and Sewerage Fund at year-end was \$16,036,105, while the previous fiscal year reported a net position of \$11,140,656. This is an increase of \$4,895,449, or 43.9 percent. The increase is due to expenses not being as much as budgeted, and the IMRF pension experiencing net revenue for the year when there is normally a net pension expense as in prior years. Unrestricted net position in the Waterworks and Sewerage Fund totaled \$1,438,875 at April 30, 2022.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Village Board made no budget amendments to the General Fund during the year. General Fund actual revenues for the year totaled \$20,282,374, compared to budgeted revenues of \$18,815,493. Revenues for all function came in over budget, except for taxes and investment income.

The General Fund actual expenditures for the year were \$701,849 more than budgeted (\$18,949,791 actual compared to \$18,247,942 budgeted). Expenditures for public safety and public works came in over budget by \$674,483 and \$11,479, respectively.

CAPITAL ASSETS

The Village's investment in capital assets for its governmental and business type activities as of April 30, 2022 was \$50,935,076 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land improvements, buildings, building improvement, machinery and equipment, software, and infrastructure.

	Capital Assets - Net of Depreciation

Management's Discussion and Analysis April 30, 2022

CAPITAL ASSETS - Continued

This year's major additions included:

Construction in Progress	\$ 2,893,940
Machinery and Equipment	441,372
Infrastructure	 9,936,477
	13.271.789

Additional information regarding the capital assets can be found in Note 3 of this report.

DEBT ADMINISTRATION

At year-end, the Village had total outstanding debt of \$31,613,016 as compared to \$34,202,394 the previous year, a decrease of 7.6 percent. The following is a comparative statement of outstanding debt:

	Long-Term Debt Outstanding						
		Governm	nental	Business	-Type		
		Activities		Activities		Totals	
		2022	2021	2022	2021	2022	2021
General Obligation Bonds Payable	\$	24,350,000	26,940,000			24,350,000	26,940,000
Installment Contracts Payable		3,433,702	3,440,595	47,381	65,401	3,481,083	3,505,996
IEPA Loans Payable		_		3,781,933	3,756,398	3,781,933	3,756,398
Total	_	27,783,702	30,380,595	3,829,314	3,821,799	31,613,016	34,202,394

State statutes limit the amount of general obligation debt a non-home rule governmental entity may issue to 8.625 percent of its total assessed valuation. The current debt limit for the Village is \$51,934,543.

Additional information on the Village's long-term debt can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Coming out of the pandemic of 2020 and 2021, a growing economy has been in place featuring low unemployment rates and brisk consumer spending. Even so, local governments have faced financial challenges with flat, or decreasing revenues. With this in mind, the Village has stressed expenditure containment. Tempering the low unemployment rate is an increase in inflation and high interest rates. After several years of deficit spending, the Village has increased its General Fund balance from FY 2020 through FY 2022, and is budgeted to projected an increase again in FY 2023.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Village of Westchester's Administration/Finance Department - 10300 W. Roosevelt Road, Westchester, IL 60154.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

Government-Wide Financial Statements

Fund Financial Statements

Governmental Funds

Proprietary Funds

Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Westchester (Village) was founded in 1926. The Village operates under the council/manager form of government and provides the following services as authorized by its charter: public safety (police and fire protection), highways and streets, sanitation, health and social services, culture and recreation, public improvements, planning and zoning, and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there are two fiduciary component units that are required to be included in the financial statements of the Village as pension trust funds and there are no discretely component units to include in the reporting entity.

Blended Component Units

Police Pension Employees Retirement System

The Village's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary and two elected police employees constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the Village, the PPERS is reported as if it were part of the primary Village because its sole purpose is to provide retirement benefits for the Village's police employees. The PPERS is reported as a fiduciary fund, and specifically a pension trust fund, due to the fiduciary responsibility exercised over the PPERS.

Firefighters' Pension Employees Retirement System

The Village's sworn full-time firefighters participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a five-member pension board, with two members appointed by the Village's President, two elected from active participants of the Fund, and one elected from the retired members of the Fund. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of the Village's contribution levels. Although it is legally separate from the Village, the FPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the Village's sworn full-time firefighters. The FPERS is reported as a pension trust fund.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION

Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Village's police and fire safety, highway and street maintenance and reconstruction, building code enforcement, public improvements, community development, planning and zoning, and general administrative services are classified as governmental activities. The Village's water and sewer utility services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Village's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (general government, public safety, public works, etc.) The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits, and charges for services, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (general government, public safety, public works, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales and use taxes, certain intergovernmental revenues, fines, permits, and charges for services, etc.).

The Village does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements - Continued

A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains three major special revenue funds. The Motor Fuel Tax Fund accounts for the usage of motor fuel tax revenues distributed to the Village for improvement of the Village's streets. The Roosevelt TIF Fund accounts for resources which are restricted to supporting expenditures for the tax increment redevelopment project area. The 911 Fund accounts for locally imposed and the State share of 911 taxes, and emergency 911 expenditures for items such as dispatch services. Additionally, the Village maintains three nonmajor special revenue funds.

Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Capital Projects Fund is treated as a major fund.

Debt Service Fund is used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service Fund is treated as a major fund.

Proprietary Fund

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Proprietary Fund - Continued

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Village maintains four major enterprise funds. The Waterworks and Sewerage Fund accounts for the provision of water and sewer services to the residents of the Village.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or custodial capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Pension Trust Funds are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to pay retirement and other related benefits for sworn members of the Village's police force. The Firefighters' Pension Fund accounts for the accumulation of resources to pay retirement and other related benefits for sworn members of the Village's Fire Department.

The Village's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Measurement Focus - Continued

All proprietary and pension trust funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary and pension trust funds' equity is classified as net position.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, investment income, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary funds and pension trust funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For the purpose of the Statement of Net Position, cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds' Statement of Cash Flows, cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property and sales taxes. Business-type activities report utility charges as their major receivables.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Internal service fund services provided and used are not eliminated in the process of consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Prepaids

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements. Prepaids are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased.

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 to \$75,000, depending on asset class, or more are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	3 - 50 Years
Buildings	10 - 80 Years
Building Improvement	10 - 20 Years
Machinery and Equipment	3 - 50 Years
Software	2 - 7 Years
Infrastructure	20 - 80 Years

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements April 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Compensated Absences

The Village accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

The Village follows these procedures in establishing the appropriation data reflected in the financial statements:

- The Village Treasurer submits to the Village Board of Trustees a proposed operating appropriation ordinance (budget) for the fiscal year commencing the following May 1. The operating budget includes proposed expenditures and the means of financing them.
- A public hearing is conducted by the Village to obtain taxpayer comments.
- Subsequently, the appropriation ordinance is legally enacted through passage of an ordinance.
- Formal budgetary integration is employed as a management control device during the year for the general, special revenue, debt service and capital project funds, except for the Police Forfeiture Fund.

Notes to the Financial Statements April 30, 2022

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

BUDGETARY INFORMATION - Continued

- Appropriations for the general, special revenue, debt service and capital project funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
- Budgetary authority lapses at the year-end.

State law requires that "expenditures be made in conformity with appropriation/budget." As under the Budget Act, transfers between line items and departments may be made by administrative action. Amounts to be transferred between funds would require Village Board approval. The level of legal control is generally considered to be the fund budget in total.

EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUNDS

The following funds had an excess of actual expenditures over budget as of the date of this report:

Fund		Excess	
General	\$	701,849	
Motor Fuel Tax		355,823	
911		238,405	
Hotel and Motel Tax		202,885	
Debt Service		76,081	

DEFICIT FUND BALANCES

The following funds had deficit fund balance as of the date of this report:

Fund	Deficit	
Roosevelt TIF	\$	1,322,655
911		330,193
Hotel and Motel Tax		25,949
Cermark Oxford TIF		40,318

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds except the pension trust funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Notes to the Financial Statements April 30, 2022

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds, and the Illinois Metropolitan Investment Fund.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

The Illinois Metropolitan Investment Fund (IMET) is a non-for-profit investment trust formed pursuant to the Illinois Municipal Code. IMET is managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an Investment Company. Investments in IMET are valued at the share price, the price for which the investment could be sold.

The deposits and investments of the Pension Funds are held separately from those of other Village funds. Illinois Statutes authorizes the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (Formerly known as IPTIP, Illinois Public Treasurer's Investment Pool), or by banks, their subsidiaries or holding companies, in accordance with the laws of the State of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies; and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions, provided the investment in separate accounts and mutual funds does not exceed ten percent of the Pension Fund's plan net position; and corporate bonds managed through an investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to forty-five percent of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to forty-five percent of the plan net position in common and preferred stocks that meet specific restrictions. In addition, Pension Funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to fifty percent of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2011 and up to fifty-five percent effective July 1, 2012.

Notes to the Financial Statements April 30, 2022

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Village

Deposits. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$11,200,391 and the bank balances totaled \$12,437,958. Additionally, the Village has \$9,031,518 invested in Illinois Funds and \$759,950 invested in IMET, which have average maturities of less than one year and are measured at the net asset value (NAV) as determined by the pool.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Village does not have a formal investment policy which specifically addresses interest rate risk.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in security instruments authorized under State Statute, The Village's general investment policy is to apply the prudent person rule: investments are made as a prudent person would be expected to act, with discretion and intelligence, to see reasonable income, preserve capital and, in general, avoid speculative investments. The Village's investment in the Illinois Fund is rated AAA by Fitch Ratings and the investment in IMET is rated Aaa by Moody's

Custodial Credit Risk - Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by an agent of the Village in the Village's name. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

Custodial Credit Risk - Investments. For an investment, this is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village's investment policy requires all security transactions entered into by the Village shall be conducted on a delivery-versus-payment (DVP) basis with the underlying investments held by a third party acting as the Village's agent from where the investment is purchased. The Village's investments in the Illinois Funds and IMET are not subject to custodial credit risk.

Concentration Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village does not have a formal investment policy which specifically addresses concentration risk. At year-end, the Village does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Police Pension Fund

Interest Rate Risk. The Fund limits exposure to interest rate risk by structuring portfolios to provide liquidity while at the same time matching investment maturities to projected fund liabilities.

Credit Risk. Besides investing in security instruments authorized under the Illinois Pension Code, the Fund's investment policy does not further address credit risk. The ratings for the U.S. agency securities, municipal bonds, corporate bonds, and mutual funds are not available.

Custodial Credit Risk - Deposits. The Fund's investment policy requires pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by an agent of the Fund in the Fund's name. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

Custodial Credit Risk - Investments. The Fund's investment policy limits exposure to custodial credit risk by utilizing an independent third party institution, selected by the individual Pension Fund, to act as custodian for its securities and collateral. At year-end, the Fund's investments in U.S. agency securities, municipal bonds, and corporate bonds are all insured or registered with the Fund or its agent in the Fund's name and the Fund's investment in mutual funds is not subject to custodial credit risk.

Concentration Risk. The Fund's investment policy does not specifically address concentration risk. In addition to the securities and fair values listed above, The Fund also has \$18,804,226 invested in mutual funds. At year-end, the Fund has no investments over 5 percent of net plan assets available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

The Fund's investment policy in accordance with Illinois Compiled Statutes (ILCS) establishes the following target allocation across asset classes:

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	38.00%	1.30%
Domestic Equities	33.00%	5.70% - 6.30%
Foreign Equities	16.00%	4.90%
REITS	3.00%	4.00%
Emerging Market	8.00%	6.50%
Cash and Cash Equivalents	2.00%	0.70%

Notes to the Financial Statements April 30, 2022

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Police Pension Fund - Continued

Concentration Risk - Continued. Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in March 2020 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of April 30, 2022 are listed in the table above.

Rate of Return. For the year ended April 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 1.45%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Firefighters' Pension Fund

Deposits. At year-end, the carrying amount of the Fund's deposits totaled \$1,579,302 and the bank balances totaled \$1,579,302.

Investments. The following table presents the investments and maturities of the Fund's debt securities as of April 30, 2022:

		Investment Maturities (in Years)

Concentration Risk. The Fund's investment policy does not specifically address concentration risk. In addition to the securities and fair values listed above, The Fund also has \$16,954,383 invested in mutual funds. At year-end, the Fund has no investments over 5 percent of net plan assets available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

The Fund's investment policy in accordance with Illinois Compiled Statutes (ILCS) establishes the following target allocation across asset classes:

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	38%	2.30%
Domestic Equities	33%	4.00% - 6.60%
Foreign Equities	16%	5.60%
REITS	3%	4.40%
Emerging Market	8%	8.30%
Cash and Cash Equivalents	2%	1.60%

Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in October 2022 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of April 30, 2022 are listed in the table above.

Rate of Return. For the year ended April 30, 2022, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was (6.92%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

PROPERTY TAXES

Property taxes for 2021 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about March 1 and August 1. The County collect such taxes and remit them periodically.

Notes to the Financial Statements April 30, 2022

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

INTERFUND TRANSFERS

Transfers are used to (1) move receipts to funds for debt service payments as they become due and (2) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them. Interfund transfers for the fiscal year consisted of the following:

Transfer In	Transfer In Transfer Out			-
Debt Service Waterworks and Sewerage	Capital Projects Capital Projects	\$	557,994 4,205,146	` /
			4,763,140	=

INTERFUND BALANCES

Interfund balances result from the time lag between when transactions are recorded in the accounting system and payments between funds are made or advances in anticipation of receipts to cover temporary cash shortages. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund	Amount
General General Firefighters' Pension	Nonmajor Governmental Debt Service General	\$ 36,860 3,013 1,444
<u> </u>		41,317

INTERFUND ADVANCES

Interfund advances represent payments of expenditures on behalf of these funds as well as coverage of significant cash shortages. These amounts will be paid over several years. Interfund advances as of the date of this report are as follows:

Receivable Fund	Payable Fund	Amount		
General	Roosevelt TIF	\$ 1,820,171		
General	911	1,111,468		
General	Nonmajor Governmental	33,060		
		 2,964,699

Defeased Debt

On May 10, 2005, the Village issued \$3,445,000 par value General Obligation Alternative Revenue Source Refunding Bonds of 2021A to refund \$3,760,000 of the General Obligation Alternative Revenue Source Bonds of 2013. The Village defeased bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payment of the old bonds. Since the requirements that normally satisfy defeasance have been met, the financial statements reflect satisfaction of the original liability through the irrevocable transfer to an escrow agent of an amount computed to be adequate to meet the future debt service requirements of the issue. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the government's basic financial statements. Through this refunding, the Village reduced its total debt service by \$43,002 and obtained an economic gain of \$59,315.

Notes to the Financial Statements April 30, 2022

2021A	Sales and Use Tax	3,364,150	4,323,013	_	December 15, 2032	%

FUND BALANCE CLASSIFICATIONS

In the governmental fund financial statements, the Village considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Village first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Village Board; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Village Board's intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Village Board itself or b) a body or official to which the Village Board has delegated the authority to assign amounts to be used for specific purposes. The Village's highest level of decision-making authority is the Village Board, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Village's policy manual states that the General Fund should maintain a minimum fund balance equal to 30% of the subsequent year's annually budgeted operating expenditures.

Net Investment in Capital Assets	13,484,903

CONTINGENT LIABILITIES

Litigation

From time to time, the Village is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Village's financial position or results of operations.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

Notes to the Financial Statements April 30, 2022

NOTE 4 - OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. The Village has purchased insurance from private insurance companies. Risks covered included certain types of liabilities and bonds. Premiums have been displayed as expenditures/expenses in appropriate funds. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

Illinois Counties Risk Management Trust

The Village participates in the Illinois Counties Risk Management Trust (ICRMT). ICRMT is a joint risk management pool of local governmental units. ICRMT administers a mix of self-insurance and commercial insurance coverages; property, workers' compensation, general liability, automobile liability, crime, excess property, excess liability and boiler and machinery coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

ICRMT is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Board Directors. ICRMT also provides its members with risk management services, including the defense and settlement of claims, and establishes reasonable and necessary loss of reduction and prevention procedures to be followed by the members. The Village does not exercise any control over the activities of ICRMT.

The relationship between the Village and ICRMT is governed by a contract and a resolution adopted by the Village. The Village is contractually obligated to make all annual and supplementary contributions for ICRMT, to report claims on a timely basis, cooperate with ICRMT, its claim administrator and attorneys in claims investigation and settlement and to follow risk management procedures as outlined by ICRMT. Members have a contractual obligation to fund any deficit of ICRMT attributable to a membership year during which they were a member. The initial premium may be adjusted based on actual experience. There were no significant reductions in insurance coverage during the year. The Village did not have any claims that exceeded insurance coverage for the last three fiscal years.

Intergovernmental Personnel Benefit Cooperative (IPBC)

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (such as medical, dental, and life insurance coverage) offered by its members to their employees and to the employees of certain other governmental, quasi-governmental, and nonprofit public service entities.

Management consists of a Board of Directors, comprised of one representative from each member or suburban participation. Additionally, there is an Executive Board that sets the strategic direction of IPBC. The Village does not exercise any control over the activities of the IPBC beyond its representation on the Board of Directors.

Notes to the Financial Statements April 30, 2022

NOTE 4 - OTHER INFORMATION - Continued

ECONOMIC INCENTIVES

In March 2014, the Village entered into an agreement with Regency Centers (Mariano's) to provide economic assistance in the form of sales tax rebates which will expire after eight years beginning in calendar year 2015 and ending December 31, 2022. For fiscal year 2022, the Village paid \$204,863 to Regency Centers for the economic incentive.

In May 2012, the Village entered into an agreement with Markham Family Development, Inc. to provide economic assistance in the form of sales taxes. For fiscal year 2022, the Village paid \$10,592 to Markham Family Development, Inc. for the economic incentive.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system, the Police Pension Plan which is a single-employer pension plan, and the Firefighters' Pension Plan which is a single-employer pension plan. A separate report is issued for the Police Pension Plan and Firefighters' Pension Plan and may be obtained by writing to the Village at 10300 W. Roosevelt Rd., Westchester, Illinois 60154. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

The aggregate amounts recognized for the pension plans are:

	Pension Expense/ Revenue)	Net Pension Liability/ (Asset)	Deferred Outflows	Deferred Inflows
IMRF Police Pension Firefighters' Pension	\$ (976,846) 1,997,919 2,822,584	(2,765,561) 33,169,225 29,206,958	81,207 10,942,935 10,819,571	2,623,360 9,404,304 6,418,131

Illinois Municipal Retirement Fund (IMRF)

Plan Descriptions

Plan Administration. All employees (other than those covered by the Police and Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources' measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2021, the measurement date, the following employees (which includes the Library) were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	75
Inactive Plan Members Entitled to but not yet Receiving Benefits	61
Active Plan Members	51
Total	187

Contributions. As set by statute, the Village's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the fiscal year-ended April 30, 2022, the Village's contribution was 10.14% of covered payroll.

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Illinois Municipal Retirement Fund (IMRF)

Plan Descriptions - Continued

Net Pension (Asset). The Village's net pension (asset) was measured as of December 31, 2021. The total pension liability used to calculate the net pension (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liabilities were determined by an actuarial valuation performed, as of December 31, 2021, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	3.25%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation.

Notes to the Financial Statements April 30, 2022

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term		
		Expected Real		
Asset Class	Target	Rate of Return		
Fixed Income	25.00%	(0.60%)		
Domestic Equities	39.00%	1.90%		
International Equities	15.00%	3.15%		
Real Estate	10.00%	3.30%		
Blended	10.00%	1.70% - 5.50%		
Cash and Cash Equivalents	1.00%	(0.90%)		

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension (asset) to changes in the discount rate. The table below presents the net pension (asset) of the Village calculated using the discount rate as well as what the Village's net pension (asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

			Current	
	1%	6 Decrease	Discount Rate	1% Increase
		(6.25%)	(7.25%)	(8.25%)
Net Pension (Asset)	\$	(814,790)	(2,765,561)	(4,283,467)

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Police Pension Plan

Plan Descriptions

Plan Administration. The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. Two members of the Board are appointed by the Village President, one member is elected by pension beneficiaries and two members are elected by active police employees.

Plan Membership. At April 30, 2022, the measurement date, membership consisted of the following:

Inactive Plan Members Currently Receiving Benefits	32
Inactive Plan Members Entitled to but not yet Receiving Benefits	4
Active Plan Members	30
Total	66

Benefits Provided. The following is a summary of the Police Pension Plan as provided for in Illinois State Statutes.

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest by the number of months of service in that period. Police officer salary for the pension purposes was capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent or ½ of the change in the Consumer Price Index for the preceding calendar year.

Notes to the Financial Statements April 30, 2022

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Police Pension Plan - Continued

Plan Descriptions - Continued

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the fiscal year-ended April 30, 2022, the Village's contribution was 65.23% of covered payroll.

Concentrations. At year-end, the Pension Fund does not have any investments over 5 percent of net plan position available for retirement benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed, as of April 30, 2022, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions Interest Rate	6.50%
Salary Increases	2.81% - 15.79%
Cost of Living Adjustments	2.25%
Inflation	2.25%

Mortality rates are based on PubS-2010(A) Study. Mortality improvement uses MP-2019 Improvement Rates applied on a fully generational basis.

Notes to the Financial Statements April 30, 2022

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Police Pension Plan - Continued

Discount Rate

The discount rate used to measure the total pension liability was 5.11%, while the prior valuation used 4.32%. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 6.50%, the municipal bond rate is 3.21%, and the resulting single discount rate is 5.11%.

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

			Current	
	1	% Decrease	Discount Rate	1% Increase

Firefighters' Pension Plan

Plan Descriptions

Plan Administration. The Firefighters' Pension Plan is a single-employer defined benefit pension plan that covers all sworn firefighter personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-1) and may be amended only by the Illinois legislature. The Village accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. Two members of the Board are appointed by the Village President, one member is elected by pension beneficiaries and two members are elected by active fire employees.

Plan Membership. At April 30, 2022, the measurement date, membership consisted of the following:

Inactive Plan Members Currently Receiving Benefits	32
Inactive Plan Members Entitled to but not yet Receiving Benefits	9
Active Plan Members	27
Total	68

Benefits Provided. The following is a summary of the Firefighters' Pension Plan as provided for in Illinois State Statutes.

The Firefighters' Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of creditable service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 48 consecutive months of service within the last 60 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for the pension purposes was capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended April 30, 2022, the Village recognized pension expense of \$2,822,584. At April 30, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	Deferred	
	C	Outflows of	Inflows of	
]	Resources	Resources	Totals
Difference Between Expected and Actual Experience	\$	1,894,536	(3,341,894)	(1,447,358)
Change in Assumptions		8,075,155	(3,076,237)	4,998,918
Net Difference Between Projected and Actual				
Earnings on Pension Plan Investments		849,880	_	849,880
			_	
Total Deferred Amounts Related to Firefighters' Pension		10,819,571	(6,418,131)	4,401,440

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

	Net Deferred Outflows/
Fiscal	(Inflows)
Year	of Resources
2023	\$ 1,518,431
2024	1,508,776
2025	1,107,423
2026	1,283,927
2027	(1,017,117)
Thereafter	
Total	4,401,440

Notes to the Financial Statements April 30, 2022

OTHER POST-EMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan Description. The Village's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general and public safety employees of the Village. RBP is a single-employer defined benefit OPEB plan administered by the Village. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the Village Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. The Village provides employer paid retiree medical insurance (including prescription drugs) to current and future eligible retirees until the age of 65 or until their death (whichever is earlier). Retirees who opt out of the Village's medical coverage receive payments equal to the base retiree plan premium until the age of 65 or until their death. Dependents are provided access to coverage on a fully contributory basis. The required contribution is based on projected pay-as-you-go financing requirements. Depending on the retirement date and collective bargaining agreement, retirees receive coverage under the Village's health plan with an employer contribution rate between 90 to 100 percent of the premium for the coverage elected by the employee.

Plan Membership. As of that date, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	23
Inactive Plan Members Entitled to but not yet Receiving Benefits	_
Active Plan Members	87
Total	110

Total OPEB Liability

The Village's total OPEB liability was measured as of April 30, 2022, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the April 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary Increases	4.00%
Discount Rate	3.98%
Healthcare Cost Trend Rates	4.50% initial trend rate for HMO and 5.00% for PPO, PPO decreasing to an ultimate trend rate of 4.50% for 2037 and later years

Retirees' Share of Benefit-Related Costs 100% of Projected Health Insurance Premiums for Retirees

Notes to the Financial Statements April 30, 2022

NOTE 4 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS - Continued

Total OPEB Liability - Continued

Actuarial Assumptions and Other Inputs - Continued. The discount rate was based on S&P Municipal Bond 20 Year High-Grade Rate Index.

Mortality rates were based on the PubG-2010(B) with future mortality improvements using Scale MP-2020.

Change in the Total OPEB Liability

		Total
		OPEB
		Liability
Balance at April 30, 2021	\$	1,778,200
Changes for the Year:		
Service Cost		83,926
Interest on the Total OPEB Liability		31,164
Changes of Benefit Terms		_
Difference Between Expected and Actual Experience		_
Changes of Assumptions or Other Inputs		(320,416)
Benefit Payments		(150,415)
Net Changes		(355,741)
Balance at April 30, 2022	_	1,422,459

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The discount rate used to measure the total pension liability was 3.98%, while the prior valuation used 1.83%. The following presents the total OPEB liability, calculated using the discount rate, as well as what the total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher:

		Current	
	1% Decrease	Discount Rate	1% Increase
	 (2.98%)	(3.98%)	(4.98%)

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules Major Governmental Funds
- Combining Statements Nonmajor Governmental Funds
- Budgetary Comparison Schedules Nonmajor Governmental
- Budgetary Comparison Schedules Enterprise Fund
- Combining Statements Pension Trust Funds
- Consolidated Year-End Financial Report

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

Motor Fuel Tax Fund

The Motor Fuel Tax Fund is used to account for for the usage of motor fuel tax revenues distributed to the Village for improvement of the Village's streets.

Roosevelt TIF Fund

The Roosevelt TIF Fund is used to account for for resources which are restricted to supporting expenditures for the tax increment redevelopment project area.

911 Fund

The 911 Fund is used to account for locally imposed and the State share of 911 taxes, and emergency 911 expenditures for items such as dispatch services.

Police Forfeiture Fund

The Police Forfeiture Fund is used to account for restricted funds collected by the police department from asset seizures.

Hotel and Motel Tax Fund

The Hotel and Motel Tax Fund is used to account for a five percent tax imposed on the local hotel and expenditures to promote the Village through tourism.

Cermark Oxford TIF Fund

The Cermark Oxford TIF Fund is used to account for resources which are restricted to supporting expenditures for the tax increment redevelopment project area.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

INDIVIDUAL FUND DESCRIPTIONS - Continued

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for financial resources used for the acquisition or construction of major capital assets (other than those financed by business-type/proprietary funds).

ENTERPRISE FUNDS

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

Waterworks and Sewerage Fund

The Waterworks and Sewerage Fund is used to account for the provision of water and sewer services to the residents of the Village.

FIDUCIARY FUNDS

PENSION TRUST FUNDS

Police Pension Fund

The Police Pension Fund is used to account for the accumulation of resources to be used for retirement pensions for the Village's sworn police personnel. Most rules and regulations of the fund are established by the Pension Division of the Illinois Department of Insurance. Resources are contributed by sworn police personnel at rates fixed by state statutes and by the Village through an annual property tax levy.

Firefighters' Pension Fund

The Firefighters' Pension Fund is used to account for the accumulation of resources to be used for retirement pensions for the Village's sworn firefighter/paramedic personnel. Most rules and regulations of the fund are established by the Pension Division of the Illinois Department of Insurance. Resources are contributed by sworn firefighter/paramedic personnel at rates fixed by state statutes and by the Village through an annual property tax levy.
